

PRODUCT DESCRIPTION

RIPPrevent+ & Accessories

Short description of the system structure

This device is a compilation of components that are already being traded worldwide. Only the motherboard (passive) is an in-house development of SHG-Conveyor Control GmbH. We have listed all relevant components in the further course of this document.

Short description of the range of functions

The RIPPrevent+ system is an electrical measuring device with an evaluation unit behind it, for the detection of slot events on conveyor belt systems in mining and open-cast mining. It is also used to save energy and measure the weight of bulk materials. The application serves as an acute and preventive protective measure against expensive damage and to prevent the associated long-lasting downtime due to costly repair work.

Short description of how it works

By recording electrical parameters (volts, amps, frequency, temperature and humidity), the system can detect and classify malfunctions based on parameter sets and the use of AI-based pattern recognition. It uses a single-board computer and a sensitive measuring device. The data obtained in this way is prepared, processed and stored for data collection on a hard disk, in a database for more than 10 years. Via a user interface, the operator can view all data and be informed about possible malfunctions. The purpose of the product is to save costs and prevent serious damage to the conveyors described above.

Short description of hardware use

The RIPPrevent+ system consists of 4 main components:

- Motherboard (Bauelement passives)
- Single-board computer (active component)
- Universal measuring device / measuring device (active component)
- Display (active component)

The system was developed in Germany and is distributed in Germany. Individual components are purchased from third countries and manufactured in Germany by SHG-Conveyor Control GmbH, Am Teichhof 7, 37120 Bovenden, Germany.

All technical requirements of the countries in which the system is introduced are complied with. These include DIN EN, VDE, IEC, ISO, CE, IEEE, as3000 and many more. Basically, the system was developed and built on these components of the standardizations.

Short description of sales & costs

The RIPPrevent+ system, including accessories, is distributed worldwide based on a fee-based license model. The focus is on a low-cost purchase of the hardware, with subsequent license marketing, which allows the product to be planned and included in almost any conveyor system by means of a lifetime hardware warranty and a lifetime warranty for software updates.

It should also be noted that the product is often shipped free of charge (replacement delivery). In almost all cases, this is due to hardware replacement.

■ Features

- Universal AC input / Full range
- Withstand 300VAC surge input for 5 second
- No load power consumption<0.2W
- Miniature size and 1U low profile
- High operating temperature up to 70°C
- Protections: Short circuit / Overload / Over voltage
- Cooling by free air convection
- Compliance to IEC/EN 60335-1(PD3) and IEC/EN61558-1, -2-16 for household appliances
- Operating altitude up to 5000 meters (Note.8)
- Withstand 5G vibration test
- High efficiency, long life and high reliability
- LED indicator for power on
- Over voltage category III
- 100% full load burn-in test
- 3 years warranty

■ Description

LRS-50 series is a 50W single-output enclosed type power supply with 30mm of low profile design. Adopting the full range 85~264VAC input, the entire series provides an output voltage line of 3.3V, 5V, 12V, 15V, 24V, 36V and 48V.

In addition to the high efficiency up to 90%, the design of metallic mesh case enhances the heat dissipation of LRS-50 that the whole series operates from -30°C through 70°C under air convection without a fan. Delivering an extremely low no load power consumption (less than 0.2W), it allows the end system to easily meet the worldwide energy requirement. LRS-50 has the complete protection functions and 5G anti-vibration capability; it is complied with the international safety regulations such as TUV EN62368-1, EN60335-1, EN61558-1/-2-16, UL62368-1 and GB4943. LRS-50 series serves as a high price-to-performance power supply solution for various industrial applications.

	SETUP, RISE TIME	1000ms, 30ms/230VAC 2000ms,30ms/115VAC at full load						
HOLD UP TIME (Typ.)	30ms/230VAC 12ms/115VAC at full load							
INPUT	VOLTAGE RANGE	85 ~ 264VAC 120 ~ 373VDC						
	FREQUENCY RANGE	47 ~ 63Hz						
	EFFICIENCY (Typ.)	80%	83%	86%	88%	88%	89%	90%
	AC CURRENT (Typ.)	0.95A/115VAC 0.56A/230VAC						
	INRUSH CURRENT (Typ.)	COLD START 45A/230VAC						
	LEAKAGE CURRENT	<0.75mA / 240VAC						
PROTECTION	OVER LOAD	110 ~ 150% rated output power Protection type : Hiccup mode, recovers automatically after fault condition is removed						
	OVER VOLTAGE	3.8 ~ 4.45V	5.9~ 7.3V	13.8 ~ 16.2V	18.75 ~ 21.75V	28.8 ~ 33.6V	41.4 ~ 48.6V	55.2 ~ 64.8V
		Protection type : Shut down o/p voltage, re-power on to recover						
ENVIRONMENT	WORKING TEMP.	-30 ~ +70°C (Refer to "Derating Curve")						
	WORKING HUMIDITY	20 ~ 90% RH non-condensing						
	STORAGE TEMP., HUMIDITY	-40 ~ +85°C, 10 ~ 95% RH non-condensing						
	TEMP. COEFFICIENT	± 0.03%/°C (0 ~ 50°C)						
	VIBRATION	10 ~ 500Hz, 5G 10min./1cycle, 60min. each along X, Y, Z axes						
	OVER VOLTAGE CATEGORY	III; Compliance to EN61558, EN50178, EN60664-1, EN62477-1; altitude up to 2000 meters						
SAFETY & EMC (Note 9)	SAFETY STANDARDS	UL62368-1, TUV EN62368-1, EN60335-1, EN61558-1/-2-16,CCC GB4943.1, BSMI CNS14336-1, EAC TP TC 004, AS/NZS 60950.1(by CB) approved						
	WITHSTAND VOLTAGE	I/P-O/P:4KVAC I/P-FG:2KVAC O/P-FG:1.25KVAC						
	ISOLATION RESISTANCE	I/P-O/P, I/P-FG, O/P-FG:100M Ohms / 500VDC / 25°C / 70% RH						
	EMC EMISSION	Compliance to EN55032 (CISPR32) Class B, EN55014, EN61000-3-2,-3, GB/T 9254, BSMI CNS13438, EAC TP TC 020						
	EMC IMMUNITY	Compliance to EN61000-4-2,3,4,5,6,8,11, EN61000-6-2 (EN50082-2), heavy industry level, criteria A, EAC TP TC 020						
OTHERS	MTBF	645K hrs min. MIL-HDBK-217F (25°C)						
	DIMENSION	99*82*30mm (L*W*H)						
	PACKING	0.23Kg; 60pcs/14.8Kg/0.88CUFT						
NOTE	1. All parameters NOT specially mentioned are measured at 230VAC input, rated load and 25°C of ambient temperature. 2. Ripple & noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor. 3. Tolerance : includes set up tolerance, line regulation and load regulation. 4. Line regulation is measured from low line to high line at rated load. 5. Load regulation is measured from 0% to 100% rated load. 6. Length of set up time is measured at cold first start. Turning ON/OFF the power supply very quickly may lead to increase of the set up time. 7. 3.3V,5V when the load factor 0~50%, the switching power less is reduced by burst operation, which will cause ripple and ripple noise to go beyond the specifications. 8. The ambient temperature derating of 5°C/1000m is needed for operating altitude greater than 2000m(6500ft). 9. The power supply is considered a component which will be installed into a final equipment. All the EMC tests are been executed by mounting the unit on a 360mm*360mm metal plate with 1mm of thickness. The final equipment must be re-confirmed that it still meets EMC directives. For guidance on how to perform these EMC tests, please refer to "EMI testing of component power supplies." (as available on http://www.meanwell.com)

TECHNICAL DATA DEVICE

General information	
Net weight	300 g (0.66 lb)
Device dimensions (approx.)	approx. 90 mm × 90 mm × 63.5 mm (3.54 in x 3.54 in x 2.5 in)
Horizontal pitch	5 HP
Battery	Typ Li-Mn CR2032, 3 V
Service life of the backlight	45000 h (50 % of the starting brightness)
Installation position	discretionary
Impact resistance	IK04 according to IEC 62262

Transport and storage	
The following information applies to devices which are transported or stored in the original packaging.	
Free fall (approx.)	1 m (39.37 in)
Temperature (approx.)	-30 °C .. +80 °C (-22 °F .. +176 °F)
Relative humidity	5 to 95 % at 25 °C (77 °F) without condensation

Ambient conditions during operation	
The device <ul style="list-style-type: none"> • must be used in a weather-protected, stationary application. • fulfills the operating conditions according to DIN IEC 60721-3-3. • possesses protection class II according to IEC 60536 (VDE 0106, Part 1), a ground wire connection is not required! 	
Operating temperature range (approx.)	- 25 °C .. + 70 °C (-13 °F .. + 158 °F)
Relative humidity	5 to 95 % at 25 °C (77 °F) without condensation
Operating altitude	< 2500 m (1.55 mi above sea level)
Degree of pollution	2
Ventilation	forced ventilation is not required
Protection against ingress of solid foreign bodies and water	IP20 i.a.w. EN60529

Supply voltage	
Nominal range	AC/DC: 80 V - 270 V
Operating range	± 10 % of the nominal range
Power consumption	max.7 VA
Recommended overcurrent protection device for the line protection	5 A (char. B), IEC-/UL approval

Voltage measurement	
3-phase 4-conductor systems with nominal voltages up to	230 V _{LN} / 400 V _{LL} (+/-10 %) acc. IEC
3-phase 3-conductor systems, unearthed, with nominal voltages up to	400 V _{L-L} (+/-10 %) acc. IEC
Overvoltage category	300 V CAT III acc. IEC
Rated surge voltage	4 kV
Fuse for the voltage measurement	1 - 10 A tripping characteristic B (with IEC/UL approval)
Metering range L-N	0 .. 230 V _{rms} (max. overvoltage 277 V _{rms})
Metering range L-L	0 .. 400 V _{rms} (max. overvoltage 480 V _{rms})
Resolution	0.1 V
Crest factor	2 (based on the metering range 230 V L-N)
Impedance	≥1.7 MΩ/Phase
Power consumption	approx. 0.1 VA / phase
Sampling frequency	8 kHz / phase
Frequency of the basic oscillation - resolution	45 Hz .. 65 Hz 0.01 Hz
Harmonics	1 .. 31.

Current measurement (../1A) (../5A)	
Rated current	5 A
Channels	4
Metering range	0.005 .. 6 A _{rms}
Crest factor	2
Overload for 1 sec.	100 A (sinusoidal)
Resolution	1 mA
Overvoltage category	300V CAT II
Rated surge voltage	4 kV
Power consumption	approx. 0.2 VA
Sampling frequency	8 kHz
Harmonics	1 .. 31.

Current measurement (0 .. 40 mA, AC)	
Channel (I5)	1

Digital Output	
Energy pulse output	
Switching voltage	max. 35 V DC
Switching current	max. 10 mA _{eff} DC
Response time	Approx. 500 ms
Pulse width	80 ms ±20%
Pulse output (energy pulse)	max. 10 Hz

Temperature measurement	
Update time	1 s
Total burden (sensor + cable)	max. 0.35 kΩ
Suitable sensor types	PT 100

Line length (digital output; temp. measurement)	
Up to 30 m (32.81 yd.)	Unshielded
Greater than 30 m (32.81 yd.)	Shielded

RS485 interface x-wire connection	
Protocol	Modbus-RTU
Transmission rate	up to 115.2 kbps

Terminal connection capacity (supply voltage) Connectable conductors. Only one conductor can be connected per terminal.	
Single core, multi-core, fine-stranded	0.14 - 2.5 mm ² , AWG 26-14
Cable end sleeve (not insulated)	0.25 - 2.5 mm ² , AWG 23-14
Cable end sleeve (insulated)	0.25 - 1.5 mm ² , AWG 23-16
Tightening torque	0.5 - 0.6 Nm (4.4 - 5.3 lbf in)
Stripping length	7 mm (0.2756 in)

Terminal connection capacity (current measurement) Connectable conductors. Only one conductor can be connected per terminal.	
Single core, multi-core, fine-stranded	0.2 - 4 mm ² , AWG 24-12
Cable end sleeve (not insulated)	0.25- 2.5 mm ² , AWG 23-14
Cable end sleeve (insulated)	0.25 - 1.5 mm ² , AWG 23-16
Tightening torque	0.5 - 0.6 Nm (4.4 - 5.3 lbf in)
Stripping length	7 mm (0.2756 in)

Terminal connection capacity (voltage measurement) Connectable conductors. Only one conductor can be connected per terminal.	
Single core, multi-core, fine-stranded	0.2 - 4 mm ² , AWG 24-12
Cable end sleeve (insulated/not insulated)	0.25- 2.5 mm ² , AWG 23-14
Stripping length	7 mm (0.2756 in)

Terminal connection capacity (RS485, digital output, temp. measurement)	
Single core, multi-core, fine-stranded	0.2 - 4 mm ² , AWG 24-12
Cable end sleeve (not insulated)	0.25- 2.5 mm ² , AWG 23-14
Cable end sleeve (insulated)	0.25 - 1.5 mm ² , AWG 23-16
Tightening torque	0.5 - 0.6 Nm (4.4 - 5.3 lbf in)
Stripping length	7 mm (0.2756 in)

TECHNICAL DATA MODULES

Module 806-EC1 Ethernet interface	
Connection	RJ45 (10M)
Frame format	IEE 802.3
MAC	IEEE certification
IP	Static set, DHCP
Protocol	Modbus/TCP, SNMP V2c
Isolation	1.5 kV AC

Module 806-EI1		
Analog input	Input number	4
	Input type	4 .. 240mA
	Accuracy	0.5 %
Relay output	Output number	2
	Contact rate	AC 250 V/5 A or DC 30 V/5 A
	Isolation	2.5 kV AC

Terminal connection capacity (inputs and outputs)	
Single core, multi-core, fine-stranded	0,2 - 1.5 mm ² , AWG 28-16
Cable end sleeve (not insulated)	0,2 - 1.5 mm ² , AWG 26-16
Cable end sleeve (insulated)	0,2 - 1,5 mm ² , AWG 26-16
Tightening torque	0.2 - 0.25 Nm (1.77 - 2.21 lbf in)
Stripping length	7 mm (0.2756 in)

Module 806-ED1		
Digital input	Number	4
	Input type	Dry contact
	Scan time	30 ms
	Isolation	2 kV AC
	Min. pulse width	5 ms
	Max. pulse width	30 ms
	Max. value of calculation	99999999
Relay output	Number	2
	Contact rate	AC 250 V/5 A or DC 30 V/5 A
	Isolation	2.5 kV AC

Terminal connection capacity (inputs and outputs)	
Single core, multi-core, fine-stranded	0.2 .. 1,5 mm ² , AWG 28-16
Cable end sleeve (not insulated)	0.2 .. 1,5 mm ² , AWG 26-16
Cable end sleeve (insulated)	0.2 .. 1,5 mm ² , AWG 26-16
Tightening torque	0.2 - 0,25 Nm (1.77 - 2.21lbf in)
Stripping length	7 mm (0.2756 in)

Table 1 - Product Information

WD Blue™ SN570 NVMe™ SSD

Stay in the moment and create beyond your expectations with the WD Blue™ SN570 NVMe™ SSD. This powerful internal drive delivers up to 5X the speed of our best SATA SSDs so you can let your imagination flow and worry less about PC lag or load times. Purpose-built for endurance, the WD Blue SN570 SSD delivers reliable data protection while keeping your storage health in check with the downloadable Western Digital® SSD Dashboard³. Whether you're working on your next passion project or crunching large amounts of data, take advantage of the high performance and capacities up to 2TB² in an affordable M.2 2280 form factor to do more, faster.

Product Highlights

- Keep your imagination flowing as you create faster while maintaining low power consumption. With read speeds up to 3500MB/s¹ (500GB – 2TB² models), your system can run up to 5X faster than our best SATA SSDs so you can stay in your creative moment.
- Remarkable reliability features to help protect your content so you can stress less about losing your brilliant work.
- Work with extra confidence and peace of mind as the downloadable Western Digital® SSD Dashboard³ helps you monitor your drive's health, available space, temperature and more.
- Build your ideal creation engine. Upgrade your system or optimize your next custom build with the slim M.2 2280 form factor. All you need is a PCIe® Gen3 x4 NVMe™ slot⁴.
- Save on space as you pack a lot of performance into your small-form factor PC with a single-sided M.2 2280 PCIe® Gen3 x4 NVMe™ SSD⁴.
- As an industry-leading flash drive manufacturer and OEM drive manufacturer, Western Digital stands behind WD Blue™ SN570 NVMe™ SSD with a 5-year limited warranty⁵.
- Acronis® True Image™ for Western Digital software backs up everything from operating systems and applications to settings and project files with support for PCs⁶.

Spark Imagination

Inspire creativity with a one-month membership* to Adobe® Creative Cloud® offering access to some of the world's best creative apps and services such as Adobe Photoshop®, Illustrator®, Lightroom®, Premiere Pro® and InDesign®. For details go to: www.wd.com/adobe.

Tune Up Your Performance

Build your ideal creation engine. Upgrade your system or optimize your next custom build with the slim M.2 2280 form factor. All you need is an NVMe™ slot.

Stay in the Moment

Keep your imagination flowing as you create faster while maintaining low power consumption. With read speeds up to 3500MB/s¹ (500GB – 2TB² models), your system can run up to 5X faster than our best SATA SSDs so you can stay in your creative moment.

A Standard for Reliability

We value your content. That's why the WD Blue™ reliability features help protect your content so you can stress less about losing your brilliant work.

Get Extra Peace of Mind

Work with extra confidence and keep your projects on point as the downloadable Western Digital® SSD Dashboard³ helps you monitor your drive's health, available space, temperature and more.

Save on Space

Pack a lot of performance into your small-form factor PC with a single-sided M.2 2280 PCIe® Gen3 x4 NVMe™ SSD⁴.

Stay Organized

Back up your photos, videos, and other personal files with included Acronis® True Image™ for Western Digital® software⁶.

* Individual subscription. Internet connection and Adobe ID required. Available in countries where Adobe Creative Cloud Individual Subscription is available. Offer limited to 1 per WD Blue SN570 NVMe SSD purchase; up to 5 per Adobe user account, subject to acceptance of applicable Terms of Use. Offer must be redeemed by October 31, 2023, while activation code supplies last. Western Digital reserves the right to change or discontinue this offer at any time without notice. See www.adobe.com/legal/terms.html for applicable terms and Privacy Policy.

Footnotes:
Specifications subject to change without notice.

¹ Test Conditions: Performance is based on the CrystalDiskMark™ 8.0.1 benchmark, 1000MB LBA range, on an Asus™ ROG Crosshair VIII Hero X570 desktop with AMD® Ryzen 9 3950X 16-Core, 32GB 3200MHz DDR4, Windows® 10 Pro 64-bit 20H1 using Microsoft® StorNVMe™ driver, secondary drive. 1 MB/s = 1 million bytes per second. IOPS = input/output operations per second. Based on internal testing; performance may vary depending upon host device, usage conditions, drive capacity, and other factors.

² 1GB = 1 billion bytes and 1TB = 1 trillion bytes. Actual user capacity may be less depending on operating environment.

³ Available for download at www.westerndigital.com.

⁴ Backwards compatible with PCIe Gen3 x1, PCIe Gen2 x4, PCIe Gen2 x2, and PCIe Gen2 x1.

⁵ 5 years or Max Endurance (TBW) limit, whichever occurs first. See support.wdc.com/warranty for regional specific warranty details.

⁶ Download and installation required. Includes 5-year license for your compatible drive. Redeem within 90-days of purchase. May not be combined with other offers. Limited time offer, see wd.com/backup for more details. Offer subject to change.

⁷ TBW (terabytes written) values calculated using JEDEC client workload (JESD219) and vary by product capacity.

⁸ Measured using MobileMark™ 2018 on Dell® Precision 7730 intel® Core™ i5–8300 CPU @ 2.30GHz 8GB Windows 10 RS5 (1809) Bios 1.13.1.

⁹ Measured during continuous sequential read or write activity and indicates the average over 1 second intervals.

¹⁰ MTTF = Mean Time To Failure based on internal testing using Telcordia™ stress part testing (Telcordia SR-332, GB, 25°C). MTTF is based on a sample population and is estimated by statistical measurements and acceleration algorithms. MTTF does not predict an individual drive's reliability and does not constitute a warranty.

¹¹ Operational temperature is measured by thermal sensors in NAND package. The SSD box package is rated up to 60°C.

¹² Non-operational storage temperature does not guarantee data retention.

Capacitive	5-Points	USB	Low Power	CE

Device & System Support

Raspberry Pi

- Supports Raspberry Pi OS, 5-point touch, driver free
- Supports Ubuntu / Kali / WIN10 IoT, single point touch, driver free
- Supports RetroPie, driver free
- Supports all versions of Raspberry Pi

PC

- Supports Windows 11 / 10 / 8.1 / 8 / 7, 5-point touch, driver free

Demystifying Design Details

1. LCD FFC cable anti-interference design, more stable for industrial application
2. EMI and ESD protection, in compliance with CE certification
3. VCOM voltage adjustment for optimizing display effect
4. USB protocol translator, converting the touch signal into standard multi-points touch protocol to achieve smooth multi-points touch control
5. USB and power input solder pads, breakout USB interface, easy for connecting external power supply
6. Backlight adjustment solder pads for PWM signal input, so as to control the backlight brightness, increasing the lifetime of the display

Enclosure series aluCASE

Type: AC 300

Material-No.: 191.300.100

* Please note: Mould slope for casting ejection, dimensions in the amount of the bottom!

Enclosure material	GD-Al Si 12 (DIN 1725)		Gasket	Dosed, PUR
Lid screws	4x stainless steel 1.4567 (V2A), captive		Ingress protection	IP66 EN 60529
Assembly screws	5x M5x8, galvanized steel		Weight	3.354 g
Design covers	2x Aluminium, silver anodized		Coating	Powder coating RAL 7040, window grey
Lid supports	2x Polypropylene (PP), window grey		Tolerance	GTA 13/5 DIN 1688-4 (outside dimensions ±0,5mm)

191.300.100
aluCASE AC 300

Product overview

Material	Aluminium
Protection Class	IP 66/EN 60529
Color	RAL 7040
Certifications	CSA (optional), Germanischer Lloyd (optional), UL (optional), GOST
Length (L)	330 mm
Width (W)	300 mm
Height (H)	120 mm
Weight (g)	3353 g

aluCASE

THE PREMIUM ENCLOSURE FOR ELECTRONICS & DEVICES

IP 66, IP 67 - Optional: IP 69K

The key product features:

- Enclosure material: diecast aluminium
- Enclosure surface: powder coating, RAL 7040
- Integrated lid support
- Transparent lid for the sizes AC 092K and ACF 110K
- Enclosure can be mounted even when the lid is fitted
- Integrated recess in lid for membrane keypad or front plate
- Clip-on design covers
- Lid screws in stainless steel 1.4567
- Enclosure seal: TPE moulded gasket, PUR

aluCASE is a highly attractive and very versatile range of diecast aluminium enclosures for industrial electronics. The design is perfect for mounting to a wall or a machine, or for use as a mobile instrument. The enclosures are sealed to IP 67 for indoor and outdoor applications. Hot jet wash IP 69K is also available. The enclosures can be mounted without opening the lid which means your electronics remain protected at all times. Whatever the application, aluCASE provides the very best housing solution for your components.

Designer features include a recessed lid, for fitting a membrane keypad, front plate or product label, clip-on design covers in plastic or aluminium that hide the lid screws and mounting holes, integrated hinges and lid retaining straps (on most models). Two versions are available with transparent lids. Threaded screw bosses are provided in the base and lid for PCBs, mounting plates, DIN rails etc. Cable glands and other accessories are also available.

We can supply aluCASE enclosures fully customised to your requirements.

Enclosure sizes

29

Additional info

Can be fastened while enclosure is closed

Integrated recess in the lid for a membrane keypad, front plate or label

Integrated PP (polypropylene) lid support strap

2 sizes available with transparent lids

Clip-on design covers, standard: Plastic POM (polyoxymethylene), similar to RAL 7040 window grey

Optional: Anodised aluminium design covers

Optional: Exterior hinges made from anodised aluminium with no visible outer screws

Enclosure

Diecast aluminium alloy

EN AN-44300 DIN EN 1706

(GD Al Si 12/DIN 1725)

1° mould slope for casting ejection > internal circumference dimensions decrease by 1° towards enclosure bottom.

Fastening

Separate screw channels

Internal mounting

M5 fastening thread on the enclosure base and in the lid

Ingress protection

IP 66, IP 67 / EN 60529

Optional: IP 69K / DIN 40050

Gasket

TPE moulded gasket, silicone-free

Optional: Silicone gasket

Lid screws

Stainless steel 1.4567, captive

Surface

Powder coating RAL 7040, window grey

Optional: Special colours

Optional: Corrosion protection

Customising

Learn more about our [full customising service for installation-ready enclosures](#)

Full-Service-Products

Customization according to your wishes.

Our *passion* is enclosures.

Expert advice

Everything begins with individual advice. We'll be pleased to support you with your project and find solutions for every requirement. Customer-specific solutions are our speciality.

Sample service

Test our products with your internal mounting. We'll be pleased to send you a sample enclosure for inspection with no strings attached.

Drilling

We'll manufacture every enclosure for you according to your exact specifications – whether they involve precise drilling or large tolerance.

Milling

Thanks to our modern CNC production, we can quickly and efficiently mill custom-fit cut-outs and contours to match your exact specifications.

Engraving

Our services also include engraving your logo and other elements, which we can of course perform in any colour you desire.

Lasering

We can process stainless steel enclosures and plates quickly and reliably according to your individual requirements thanks to our in-house lasering centre.

Powder coating

We can powder coat enclosures, command enclosures and suspension systems in any RAL colour you desire. Custom colours are of course also possible.

Painting

We can also paint all our enclosures in any RAL colour you desire. The application of primer and special colour structures are possible, as well.

Serigraphy

If desired, we can apply your logo and lettering or other markings using serigraph printing.

Digital printing

Digital printing is particularly worthwhile for low-volume orders and for realising complex patterns or images.

EMC enclosures

We offer our conFORM low-price standard EMC enclosure to protect your internal mounting against electromagnetic radiation. On request, we can also supply an EMC-compliant version of any other ROLEC enclosure.

Displays

We are able to offer the right made-to-measure display for all our enclosures – in varying sizes and degrees of robustness depending on the application.

Accessories

ROLEC's portfolio also includes matching front plates, mounting plate, supporting rails and terminal blocks as well as a range of cable glands, blanking plugs etc.

Assembly

Would you like to have all your components supplied already assembled? No problem. Our assembly team will be pleased to perform all assembly work on your behalf.

Our Service

If you have any requirements for services not listed here, please ask us. Customer-specific solutions are our speciality. We also are keen to take on unusual tasks.

We will help you with those challenges that many others would give up on.

CURRENT TRANSFORMER TECHNICAL DATA

Type MKSZR 200

Low-voltage Voltage Transformer, Double-pole Insulated for Indoors

Safety and Installation Instructions. Please read before use!

General: The low-voltage voltage transformer works on the principle of the inductive transformer. The secondary side is galvanically separated from the primary side. The instrument transformer is used in switchgear, switching device combinations and power distribution systems in connection with secondary devices (relay, meter, indication instruments). The housing is made from glass fibre reinforced polycarbonate. Refer to the rating plate on the device for the operational specifications.

1. Terminals M 3,5,
Screw with plus-minus slot,
Terminal cross-sections:
2x 1,5 mm² each (flexible)
Wire with bushing
acc. to DIN 46 228-1/-2/-3/-4),
2x 2,5 mm² each (solid),
Tightening torque: 0,8 Nm max.
2. Snap-on fastener on top-hat rail
acc. to DIN EN 60715-TH 35
3. Rating plate
4. Slider for Snap-on
mounting bracket
acc. to ET 4720-1-2

Circuit diagram for V-Circuitry
(special case)

Unpacking

Check the instrument transformer for completeness and integrity. Pay attention to sharp edges on the housing. You could get cut on them. If the instrument transformer show any signs of external damage there is the risk of an electric shock when putting it into operation.

Storing

Store the instrument transformer at an ambient temperature from -5°C to +40°C. The relative atmospheric humidity should be <95% and non-condensing.

Transporting

The instrument transformer can be transported without any aids. If any damage occurs during transporting or storage, please contact us directly.

Ensure a safe working environment - during assembly, installation, commissioning, shut-down and during inspection work on the electrical system.

Mounting and Installing

You may undertake the following installation work only if you have the necessary expertise and know-how for the electrical installation.

Shut down the associated electrical system before assembly. Otherwise there is the risk of suffering an electric shock!

► Mount the instrument transformer on a top-hat rail by using the snap-on fixture. Make sure that the mounting surface is even.

► When using two double pole insulated voltage transformers in an open delta circuit, ground the secondary windings connected with each other at only one transformer (see circuit diagram).

► Avoid mechanical tensions during operation. Make sure that no dynamic loads act on the instrument transformer.

Do not short-circuit the secondary circuit of the voltage transformer under any circumstances. With a short-circuited secondary winding, the voltage transformer will be thermally overloaded.

There is risk of death! Furthermore, the induced currents endanger the functional safety of the voltage transformer.

Putting into Operation

Satisfy yourself that the instrument transformer is mounted properly and the secondary and primary cables are connected correctly. Have you maintained the tightening torques specified?

► In case of downstream earthing measures, ensure you did not integrate a short-circuit loop.

► If you are unsure, please contact an experienced colleague or contact us directly.

Operating

► During operation, you should not touch the primary or secondary terminals. Make sure that unauthorised persons and children cannot access the instrument transformer.

► You must not operate the instrument transformer with secondary short-circuit (refer to the safety instructions given in *Mounting and Installing*).

Shutting down

Shut down the associated electrical system. Ensure that the system remains de-energised while working on the instrument transformer.

Disassembling

Follow the work steps as described under *Shutting down*. First, observe and follow the safety instructions given in *Mounting and Installing*. Then, loosen the secondary and primary terminals and the snap-on fixture.

Cleaning

Follow the work steps as described under *Shutting down*. Observe and follow the safety instructions given in *Mounting and Installing*.

Maintaining

The instrument transformer is maintenance-free.

Do not rectify faults on your own!

The instrument transformer cannot be repaired. If you suspect that the instrument transformer is defective, please contact us immediately.

Disposing

Dispose of the instrument transformer in accordance with the national provisions of the country in which you are operating it.

We do not assume any liability for incorrect or improper assembly and installation.
